

100 YEARS OF OUTBACK MINISTRY

Australian Inland Mission

The Australian Inland Mission, which is commemorated on our \$20 Note turns 100 this year.

This organisation has deep roots into the Northern Territory with one of its early motivations coming through a letter written by our own Jessie Litchfield. She wrote a letter setting out the needs of the Top End which got so much under the skin of

John Flynn that it would not let him rest. As he further investigated the needs of the Inland, his first visit was to **Darwin** and his second was to Alice Springs.

Hear more of the AIM story and of the RFDS, Bush Nursing Hospitals and the motivation of John Flynn which brought a mantle of safety over the Outback..

An entertaining and inspirational presentation including over 200 original and modern slides.
